KNOW - THINK - DO

Protocols for MBC Kids classrooms

WHAT MBC KIDS STAFF AND PARENTS NEED TO KNOW

Please evaluate your overall health before coming to church. Anyone with a temperature of 100.4+ or with cold or flu-like symptoms should stay home. Please take advantage of our online service.

If your child is experiencing or has experienced cold or flu-like symptoms within the last 24 hours, please keep them at home and re-evaluate for the next week.

Symptoms include...

- Fever (100.4 or higher)
- Vomiting or Diarrhea
- Cough, Sore Throat
- Shortness of breath, Difficulty Breathing
- Lack of smell or taste
- Chills, headache, body aches, etc.

Signs will be posted on children's class doors. If a child is visibly ill, he or she will not be allowed to enter the children's area.

We ask that only one parent or guardian take children to their room.

If a child has symptoms while in class, his/her temperature may be taken and/or a parent will be contacted to come pick up their child from the room.

If a child or volunteer in the room has a positive COVID-19 test within 10 days of contact, all people that were in that room will be contacted and not allowed back for 14 days from the first initial contact.

There might be times in the classroom when children will not be physically distanced.

Please know that we cannot guarantee a risk free environment.

While interacting/engaging (within 6 feet) with children, teachers will need to wear shields/masks inside the church.

While holding an infant/child we are asking for teachers to wear a mask.

We are asking children 1st grade and older to wear masks inside in congested areas such as hallways and the lobby. 1st – 3rd grade may take their masks off in their classroom. When 4th grade children and up can distance from others they are able to take their masks off as needed.

If classes have snacks, teachers will be the only ones serving the snacks and hands will need to be washed before and after snack time.

After activities where sharing items is involved, wash/sanitize hands.

Remind children to use good hygiene practices such as sneezing into their elbows and washing hands often.

We will limit the amount of toys in each class and toys that need to be sanitized can be placed in a bin at the end of the class.

Each child will have their own supplies with limited sharing during class time. Children will not need to have the same supplies each week since there are at least 3 days in between uses.

WEDNESDAY NIGHTS:

The gym will be closed before and after class for children on Wednesday nights. Please take your children to their class directly.

Classes can take their children either outside (preferred) or the gym during their scheduled gym time. Each class will have a gym bag they will bring with them to take outside or to the gym. When done in the gym, classes will need to wash/sanitize their hands when they go back to their class.
