

The missionary report of Igor Yusenkov for the 4th quarter of 2023

I greet you in the glorious name of Jesus Christ!

Your continued help is very important to the continuation of my ministry.

I sincerely thank all the brothers and sisters of the mission for the continued support in the conditions of war.

Gradually, a chaplaincy department, which will have more directions, is being formed from the prison and military chaplaincy. Prison, police, hospital chaplaincy, and service to the wives and families of fallen soldiers. At this time, many different cases, discussions and measures have been taken for this purpose. The main goal is to develop more areas of chaplain service, and form a strong team.

There is an understanding that such an important and difficult ministry should unite many brothers and sisters of our churches for joint work. Personally, I have an increasing workload, more and more needs with requests from commanders regarding spiritual work among soldiers and officers. We visit and support the same area and units. There are more and more needs for pastoral care. Praise God, the team is growing, more and more brothers and sisters will join and want to serve the military and their families.

For the first time, a school of chaplaincy was opened in Odesa. I took part in the opening. The commanders with whom I worked with before the start of the full-scale invasion responded with joy to the invitation and shared their experience in working with chaplains.

I constantly visit the wounded in rehabilitation, and military personnel in prison.

We are preparing for the Christmas holidays. Gifts for the children of military personnel, gifts for soldiers and so on are being prepared. Also visiting many military units with live music and preaching of the Gospel.

I ask you to pray for me, my health and wisdom in solving difficult issues related to my ministry.

Glory be to God for everything!!!

Igor Yusenkov
